

N RIKO TRIHENDRAWAN

FULL STACK DEVELOPER

✉ digitallica@gmail.com | 📞 [+6285314285015](tel:+6285314285015) | 🌐 <https://nrikot.github.io>

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building high-performance web and mobile applications across eCommerce, corporate, and training platforms. Delivered measurable business impact, including a **60% reduction** in manual processing time through AI-powered automation, a **40% increase** in organic traffic via SSR/SEO optimization and **99.9% uptime** across containerized production systems. Specializes in TypeScript, React, Next.js, Node.js, React Native and PostgreSQL, with strong expertise in cloud infrastructure (AWS, Docker, Kubernetes, Terraform), CMS platforms (WordPress, Drupal) and GDPR-compliant, security-hardened API development. Proven track record of translating UI/UX designs into intuitive, scalable products and cross-functional teams to deliver on business objectives.

CORE SKILLS

Frontend: React, Next.js, TypeScript, Responsive/Mobile-First Design, SEO Optimization

Backend: Node.js, Express.js, FastAPI, MongoDB, PostgreSQL, Prisma, Supabase, REST API

Mobile: React Native

DevOps & Cloud: AWS, Docker, Kubernetes, CI/CD, Terraform, Infrastructure as Code

CMS Platforms: WordPress Custom Plugin Development

Tools & Practices: Git, Agile Development, GDPR Compliance, API Security, N8N Workflow Automation, LLM/AI Microservices

PROFESSIONAL EXPERIENCE

Full Stack Developer

PT Pemerintahan Terbuka Technology | October 2020 - Present

- Engineered AI-powered automation workflows using N8N on AWS and GCP, reducing manual business processes by 60% and accelerating data-driven decision-making for enterprise clients.
- Containerized and orchestrated LLM-based microservices with Docker and Kubernetes, delivering real-time AI inference at scale while sustaining 99.9% uptime across production environments.
- Architected a scalable eCommerce marketplace using React.js, Redux, Node.js, TypeScript, and MongoDB, improving application performance and user engagement.
- Implemented server-side rendering with Next.js, boosting organic search traffic by 40% and strengthening SEO effectiveness.
- Converted UI/UX designs into pixel-perfect, fully responsive web applications, ensuring a seamless cross-device user experience.
- Automated cloud infrastructure provisioning and deployment using Terraform on AWS, significantly improving deployment reliability and scalability.
- Strengthened API security and GDPR compliance, reducing system vulnerabilities and aligning with modern data protection standards.
- Built custom WordPress plugins and REST API integrations, delivering tailored solutions aligned with stakeholder and business requirements.

Frontend / Backend Developer

Tirian Pty Australia | June 2018 - September 2020

- Developed interactive training programs using React.js, Node.js, Express.js, and MongoDB, driving major improvements in application performance and user engagement.
- Designed and deployed engaging user experiences for flagship corporate coaching and training programs, contributing to a measurable increase in client engagement.
- Built custom Drupal and WordPress websites to represent client brand offerings, earning positive acclaim from clients and stakeholders.
- Set new benchmarks in corporate coaching website design, with deliverables recognized for both aesthetic quality and functional excellence.

Front End Developer

Bullseye Digital Agency Bali/Australia | April 2016 - May 2018

- Led front-end development for major enterprise client websites, including Bayer's Better Choices, reconstruction, Ayers Rock Resort, Steadfast systems and Blackmores Institute's platform.
 - Collaborated within cross-functional engineering teams to deliver high-profile corporate digital projects for global brands, including Jeld-Wen subsidiaries (Stegbar, Airlite, Regency, Corinthian Doors) and Blackmores Australia.
 - Establishing consistent frontend standards, contributed to the development of core company white-site templates, streamlining future web delivery.
-

ADDITIONAL INFORMATION

Available for full-time Full Stack Developer or remote opportunities roles. Experienced working across technical and business contexts, with a strong focus on rapid execution, ownership, scalable architecture and turning ambiguous problems into production-ready solutions.
